Overview

The Texas Veterans Commission (TVC) has resources available for our service members, veterans, and their families (SMVF) that are dealing with the unique struggles that are due to military service.

The TVC Veterans Mental Health Department (VMHD) provides military trauma-informed training and technical assistance to faith-based and community organizations to create greater awareness of and access to mental health resources.

Additionally, the VMHD provides the training and technical assistance to organizations spanning the Texas Criminal Justice System in an effort to improve diversion and mental health treatment options for justice involved veterans who have suffered military-related traumas.
