Senate Bill 1180, 86th Legislature, requires that the Texas Veterans Commission (TVC) provide a report, on December 1st of each year, to the Governor, the Lieutenant Governor, the Speaker of the House of Representatives, and each member of the Legislature. In accordance with Texas Government Code Title 2., Subtitle K., Chapter 124, the contents of the report must contain Veterans Treatment Court information from the preceding fiscal year, to include (a) the number of veteran defendants who participated in each veteran's treatment court program, (b) the number of veteran defendants that successfully completed each program, (c) the number of veteran defendants that did not successfully complete the program, and (d) the amount of grant funding received by each Veterans Treatment Court must also be included in the report.

Texas Government Code defines a Veterans Treatment Court program as having the following essential characteristics: 1) the integration of services in the processing of cases in the judicial system; (2) the use of a nonadversarial approach involving prosecutors and defense attorneys to promote public safety and to protect the due process rights of program participants; (3) early identification and prompt placement of eligible participants in the program; (4) access to a continuum of alcohol, controlled substance, mental health, and other related treatment and rehabilitative services; (5) careful monitoring of treatment and services provided to program participants; (6) a coordinated strategy to govern program responses to participants' compliance; (7) ongoing judicial interaction with program participants; (8) monitoring and evaluation of program goals and effectiveness; (9) continuing interdisciplinary education to promote effective program planning, implementation, and operations; (10) development of partnerships with public agencies and community organizations, including the United States Department of Veterans Affairs; and (11) inclusion of a participant's family members who agree to be involved in the treatment and services provided to the participant under the program.

Texas Veterans Commission's is pleased to present the Veterans Treatment Court Program Annual Report. At the publication of this report, there are 31 verified Veterans Treatment Courts (VTC) covering 38 Texas counties in operation. The data contained in this report is presented as received by the submitting Veterans Treatment Courts from the preceding State fiscal year. There are no standardized statewide reporting requirements for Veterans Treatment Courts, and each Court has the autonomy to track data at their discretion.

The Texas Veterans Commission's Veterans Mental Health Department (VMHD) provides support to all Veterans Treatment Courts as part of its role in ensuring access to competent mental health services for service members, veterans, and their families. In addition to directly connecting veterans and families to local mental health and supportive services, VMHD works with partners at the national, state, and local levels to address veteran-specific issues including suicide prevention, veteran homelessness, military cultural competency, peer support services, military-related trauma, women and rural veterans, and justice involvement. Across all VMHD programming, services including training and technical assistance are offered freely to all who are in need. VMHD accomplishes these tasks by providing training, certification, and technical assistance across its six programs: Justice Involved Veteran (JIV) Program; Homeless Veteran Initiative; Military Veteran Peer Network; Community & Faith-Based Program; Veteran Provider Program; and Veteran Suicide Prevention Program. In collaboration with the other VMHD programs, the Justice Involved Veteran Program works to improve veteran services across the entire criminal justice continuum at each intercept of the sequential intercept model. A crucial function of the JIV Program is to serve as a resource to all the Veterans Treatment Courts across Texas. In Fiscal Year 2022, the JIV Program provided Veterans Treatment Courts with 117 instances of technical assistance aimed at bolstering best practice standards. The JIV Program also provides support to the TVC-Certified Peer Service Coordinators of the Military Veteran Peer Network who participate in the Veterans Treatment Courts as local support resources and court mentors. VMHD's JIV Program Managers are also committed to working with counties and local stakeholders who are interested in starting Veterans Treatment Courts in their areas in accordance with local needs, available resources, and best practices proven to be effective. The

JIV Program also collaborates with the local jails, sheriff departments, law enforcement and statewide stakeholders including the Texas Department of Criminal Justice, Texas Commission on Jail Standards, Texas Commission on Law Enforcement, Texas Health and Human Services, the Statewide Behavioral Health Coordinating Council, and others. The JIV Program also works closely with national partners including the Department of Veterans Affairs, Substance Abuse & Mental Health Services Administration, and the National Institute of Correction as an active member of the nationwide Justice Involved Veterans Network.

The Texas Veterans Commission also supports VTCs through the Fund for Veterans' Assistance (FVA) reimbursement grants intended to support the rehabilitation of justice involved veterans to best prepare them for reintegration with their communities. FVA grant funding can be applied to reimburse: substance use detection; probation officers; bailiffs; program/court coordinators; licensed mental health providers and/or counselors applying evidence-based practices; life skills and community reintegration training programs; financial assistance to participating veterans for mortgage, rent, and utilities; transportation assistance; substance use treatment; anger management/batterer intervention/domestic violence programs; and other expenses that provide or support veteran services. As of the publication of this report, FVA is supporting 17 Veteran Treatment Courts with a total of \$3,835,000 aimed at serving approximately 1,042 justice involved veterans.

The Texas Veterans Commission acknowledges and commends the continued dedication and excellent work of the Veterans

Treatment Courts as they make a meaningful and lasting impact on the lives of Texas veterans and their families. We also wish to
commend state leaders for their continued support of Texas veterans and the stakeholders who collaborate at the community levels
to improve veteran lives, fulfill the promises made to those who served, and reduce recidivism across Texas while promoting mental
health wellness. While there are excellent services being provided that keep Texas at the forefront of veteran services, there is still
much work ahead for those who aim to address the mental health and supportive needs for the growing number of veterans who
make their home in the Lone Star State.

Total Data for all Veteran Courts Reporting in FY 2022			
Number of Veterans Served	1243		
Number of Veterans Successfully Completed	441		
Number of Veterans Unsuccessfully Completed	112		
Grant Funding Amount Total:	\$7,011,764.80		

Reported Grant Funding Sources

U.S. Department of Justice (DOJ)
